

2256

A great addition to your team!

Is high-quality performance and reliability essential when it comes to processing your workflows? Then put your faith in the 2256 A3 b/w multifunctional system for copying, printing, colour scanning and the option to fax*.

Is flexibility just as important to you? Then expand the range of services your system provides with the handy optional extras and adapt them to suit your individual requirements and workflows. A versatile partner that deserves a place in your team!

Your benefits:

Extensive portfolio: Copying, printing (A6R to A3), colour scanning and faxing* are the most important features integrated into the system. Short warm-up times of just 18.8 seconds, printing of the first page after just 5.7 seconds and a maximum speed of 22 A4 pages per minute speed up your workflows. You can scan your templates quickly at a rate of 22 A4 pages per minute in b/w and 14 pages per minute in colour*. Print your documents via the USB interface or directly via your network*. Save yourself the added effort of having to sort your documents with the 'Scan Once - Copy Many' feature.

Effective paper handling: The original feeder* with auto reverse function and a 50-page capacity processes your double-sided originals automatically. Use up to three additional paper cassettes* to increase the paper capacity to as many as 1,300 pages from five paper feeds. The duplex unit* for double-sided printing saves paper and is kind to the environment.

Efficient controlling: Set up to 30 management codes for different users.

Secure document memory: Prepare up to 30 password-protected document boxes in order to cache print jobs and prevent documents getting mixed up.

State-of-the-art printer driver: The system is equipped with a printer driver as standard, which contains a graphical user interface as well as many other useful features.

User-friendly: The five-line display simplifies data entry and it is easy to save routine jobs using the program buttons.
